Fitness-Drink

Hydrate, Perform and Recover

FitLine Fitness-Drink contains a carbohydrate electrolyte solution, optimized for athletes, contributes to the maintenance of endurance performance during prolonged exercise.

- Magnesium supports normal muscle function and contributes to a reduction of tiredness and fatigue
- B vitamins promote normal protein and glycogen metabolism
- 3-phase concept (before - during - after)
 - Mineral support before and after sports
 - Carbohydrate support before, during and after sports
- Easily digestible, even during top performance
- Improved intake of fluids through isotonic
 - A solution that has the same salt concentration as cells and blood
 - Replaces nutrients and fluids quickly, helping to prevent exercise-related injuries and ailments
- NTC® supports optimum nutrient intake and bioavailability

DIRECTIONS: Mix 1 packet of powder into 17 fl.oz. of water.

DAILY RECOMMENDATION: 1 portion (1 packet) per day

"My favorite product is the Fitness-Drink, which I take before, during and after training. I quickly discovered that they [FitLine products] not only make me lively and quicker, but also enable me to keep going during a hard workout and promote my endurance. I have been feeling super since taking the FitLine products and this is reflected in my results." – Oliver Grob, Inline Skating / Ice Speed Skating
